Dean and Professor  
Florida State University  
College of Nursing

Welcome to the 2023 AAPINA Conference! I hope you are excited for two days of excellent speakers, innovative presentations, and networking with your AAPINA colleagues. The theme of this year's conference, Transforming Nursing Future Through Advancement in Healthcare Technology & Innovation, is a primary focus of my work. I strongly believe that technology and digital health advancements will lead to health equity and better patient outcomes for all. I am also pleased that at this year's conference we will unveil our Strategic Plan for 2023–2028. We sought to develop a plan that would not only address the needs and aspirations of our organization and its members for the next five years but further our focus on national and global advocacy and engagement. I hope you will come away from our time together inspired, energized, and recommitted to our mission. I want to thank all of you for your past and continued contributions to AAPINA and nursing community. I also want to acknowledge all of the conference planning committee members for their hard work in putting this wonderful annual gathering together for AAPINA. Stronger Together!

Greetings! Welcome to the Asian American Pacific Islander Nurses Association (AAPINA)'s 19<sup>th</sup> Annual Conference with our theme of "Transforming Nursing Future Through Advancement in Healthcare Technology & Innovation." Since the pandemic, this is our first in-person meeting with generous support from the CSMC.

This conference is made possible by the dedication and determination of many individuals. On behalf of AAPINA, we extend our sincere thanks to the 2023 conference planning committee and many others for their dedication to making this conference a success. We would also like to thank all sponsors, exhibitors, speakers, and presenters who have pooled their talent, time, and resources to make this conference successful. Finally, we would also like to extend our appreciation to our conference attendees who continue to support AAPINA's mission; without you, this conference would not have been possible.

We hope you enjoy the conference and bring full of energy and compassion to share with your colleagues and students.

**Jung-Ah Lee**

Dear Colleagues and Participants,

On behalf of Asian American/Pacific Islander Nurses Association (AAPINA) and our esteemed co-sponsors, it is our distinct pleasure to extend a warm and heartfelt welcome to you for the 2023 AAPINA Conference sponsored by Cedars Sinai Medical Center, Los Angeles, CA. As co-chairs of this extraordinary event, we are honored to invite you to join us in a celebration of knowledge, camaraderie, and progress in the field of nursing.

The AAPINA Association Conference has consistently stood as a beacon of innovation, diversity, and excellence in healthcare. Our theme for this year's conference, "*Transforming Nursing Future through Advancement in Healthcare Technology and Innovation*" and subthemes that align with NINR's 2022-26 Nursing Strategic Plans, encapsulates the spirit of resilience, collaboration, and advancement that define our collective journey as healthcare professionals. We have tried our best to meticulously curate a dynamic program that promises to challenge your intellect, inspire your passion, and foster meaningful connections. With a rich array of keynote speakers, interactive symposiums, insightful panel discussions, and networking opportunities, we are confident that your experience will be both enlightening and transformative.

Beyond the enriching educational offerings, we invite you to immerse yourself in the vibrant culture and hospitality of Southern California. From the captivating local attractions to the diverse culinary experiences, we hope you take the opportunity to explore and enjoy the unique flavor of this city.

We extend our sincere gratitude to our sponsors, partners, and volunteers who have dedicated their time, resources, and expertise to make this conference possible. Your unwavering support is a testament to the collaborative spirit that underpins our community.

We are excited to embark on this journey of discovery, learning, and connection with you. Let us come together to celebrate our shared heritage, harness the power of our collective wisdom, and continue the legacy of excellence that defines AAPINA.

Warm Regards,  
**Yuqing Guo and Linda Kim**

# WELCOME FROM CSMC

**David Marshall,**  
**JD, DNP, RN, FAAN, FAONL**  
Senior Vice President & Chief Nursing Executive  
James R. Klinenberg, MD  
and Lynn Klinenberg Linkin Chair in Nursing  
Cedars Sinai Medical Center

Ladies and gentlemen, esteemed colleagues, distinguished guests,

It is with great pleasure and immense pride that I welcome each and every one of you to the 2023 Asian American/ Pacific Islander Nurses Association (AAPINA) Conference hosted by Cedars Sinai Medical Center. As the Chief Nursing Executive of this esteemed institution, it is an absolute honor to address you today.

With the sixth Magnet designation, Cedars Sinai has a longstanding legacy synonymous with excellence, innovation, and compassionate care. Our heritage is firmly rooted in the tireless efforts of countless nurses who have worked ceaselessly to elevate the standards of patient care. As we gaze into the future, we acknowledge the considerable challenges and opportunities that lie ahead. The healthcare landscape is evolving at an unprecedented pace, and nursing, as the bedrock of patient care, stands poised at the forefront of this transformative journey.

Our gathering here is a testament to the unwavering commitment and dedication that each of you brings to the field of nursing. As we come together under the banner of this conference, we are united by a shared passion for advancing healthcare, enhancing patient outcomes, and shaping the future of nursing practice.

I encourage each of you to actively engage, share your insights, and seize the opportunity to learn from one another. Our collective wisdom is a powerful force that can shape the trajectory of healthcare for generations to come. The connections you make, the ideas you exchange, and the solutions you envision during these days will have a lasting impact on the lives of countless patients.

As we immerse ourselves in the discourse of this conference, let us also take a moment to express our gratitude to the patients and families who entrust us with their care. Our dedication to nursing reflects our commitment to improving lives and alleviating suffering.

In conclusion, I express my heartfelt appreciation to the organizing committee, speakers, sponsors, and everyone who contributed to bringing this conference to fruition. The dedication and passion you have demonstrated are palpable in the exceptional program that awaits.

I am confident that this conference will be a success. We have much to learn from each other, and I am excited to see what we can accomplish together. Thank you again for coming. I hope you enjoy the conference!

Best Wishes,  
**David Marshall**

# GENERAL INFORMATION

## 2023 AAPINA Conference Overview

The global pandemic has accelerated technological innovations and significantly increased the use of digital solutions in clinical decision support, telehealth, healthcare IT systems, and other areas. As a result, it has transformed nursing practice, systems of care, and healthcare delivery. The 2023 AAPINA Conference will provide you with a global perspective on Transforming the Nursing Future through Advancements in Healthcare Technology and Innovation by imparting insights from world-renowned experts, researchers, scholars, and frontline staff.

## Admission to Sessions

All attendees require a name badge received at the time of registration for admission to all sessions. Attendees are always encouraged to wear a name badge during the conference.

## COVID/ Masking Policies

As California and the federal COVID-19 state of emergency end, we will be lifting our in-person meeting restrictions across all Cedars-Sinai sites, including Cedars-Sinai Medical Center, Cedars-Sinai Marina del Rey Hospital, and the Medical Network. Effective Monday, May 1:

- Masks will be strongly recommended but not required in meetings where patients are not present (in alignment with our current masking policy)
- Meetings may resume at 100% capacity
- Food and drink will be allowed in meetings
- Masking will still be required for any meetings involving patients
- We still strongly encourage you to avoid crowding, when possible

This guidance applies to anyone using meeting space at Cedars-Sinai, including external parties.

*Guidance around in-person meetings and our visitation policy may be changing due to changing COVID-19 guidelines. We will inform you of any future changes.*

## Evaluations

**You must complete an evaluation of the speakers to receive CE credits.**

Also, don't forget to complete a conference evaluation form and submit it to AAPINA docents at the registration table at the end of the conference. It will take about 5-10 minutes for you to complete the evaluation form. Your input is essential to improve the program of the next AAPINA conference.

## Exhibits

Representatives of several academic and/or healthcare institutions will be on site to promote their programs and answer your questions. All attendees, including exhibitors, should wear a name badge to enter the exhibit hall. **Exhibits are available anytime during the conference.**

## Smoking

CSMC is a non-smoking property. Please refrain from smoking anywhere on campus.

# KEYNOTE SPEAKERS

**Elizabeth Tarlov**

**PhD, RN**

Division of Extramural Science  
Program

National Institute of Nursing Research  
National Institute of Health

Dr. Tarlov joined NINR in April 2022. She previously held dual appointments as Research Health Scientist in the Center of Innovation for Complex Chronic Healthcare, Edward Hines, Jr. Veterans Affairs (VA) Hospital and Associate Professor of Population Health Nursing Science, University of Illinois Chicago (UIC) College of Nursing. Dr. Tarlov earned a PhD in Health Policy and Administration (UIC), MS in Nursing (Family Nurse Practitioner; Pace University), and BA in American Studies (Middlebury College). Dr. Tarlov completed postdoctoral training in the Midwest Center for Health Services and Policy Research, Hines VA Hospital. She began her nursing career as a family nurse practitioner, providing primary care to migrant farm workers and their families and later in community health centers and other settings.

Dr. Tarlov has a long-standing commitment to research on the social determinants of health. Her program of research integrated individual, institutional, and community-level data to identify impacts of policy and the environment on adult health and behavior, healthcare outcomes, and health inequities. As an innovator in record linkages, Dr. Tarlov's research program creatively leveraged the vast data resources of the VA in combination with external public and proprietary data sources to obtain new insights into contextual influences on health and healthcare effectiveness. She has also conducted methodological work focused on derivation of valid measures of individuals' social and economic characteristics from raw administrative data. She has led and participated as co-investigator on numerous grants funded by NIH, VA, and PCORI. She has published widely including in Health Services Research, Medical Care, Obesity, and Cancer Epidemiology Biomarkers and Prevention. Dr. Tarlov's previous leadership roles include Associate Director of the VA Information Resource Center; Chair, VA Nursing Research Field Advisory Committee; Board of Directors, Heartland Health Centers (an FQHC); and Steering Committee, Chicago Area Patient-Centered Outcomes Research Network (CAPriCORN), a PCORnet clinical data research network.

# KEYNOTE SPEAKERS

**Eun-Ok Im**

**PhD, MPH, RN, CNS, FAAN**

Professor & Edith Folsom Honeycutt

Endowed Chair

Emory University

Nell Hodgson Woodruff School of Nursing

Dr. Eun-Ok Im is an internationally known methodologist and theorist in the field of global cross-cultural women's health research, addressing gender and ethnic differences in health/illness experience of midlife women, including cancer survivorship, menopausal symptoms, and physical activity. Dr. Im's most outstanding contribution to nursing is a research program that adopts Internet, computer, and mobile technologies to eliminate gender and ethnic disparities in midlife women's health issues. She is a pioneer who has taken the lead in this evolving field from the late 1990s, and her studies are among the first of their kind to use these technologies to build nursing knowledge. Over two decades, Dr. Im has successfully solicited NIH funding to support her research, including five R01, one R21, and one R61/R33 studies as PI, and has aggressively disseminated her findings, with over 400 publications (232 refereed journal articles).

By developing the theoretical and methodological structures and frameworks for ethical and culturally sensitive research in the Digital Age, Dr. Im's studies have led and impacted over 200 students and researchers far beyond the scope of her own work and continuously impact advances in nursing science. Also, her leadership is reflected in her former and current national and international services, including her presidentship of the AAPINA. She has numerous national and international awards including the 2014 International Nurse Researcher Hall of Fame Award from the Sigma Theta Tau International, the 2020 Council for the Adv. of Nursing Science (CANS) Outstanding Nurse Scientist award, the 2022 SNRS Distinguished Researcher Award, the 2022 Faye Glenn Abdellah Research Leadership Award by the Friends of the National Institute of Nursing Research (FNINR), the 2023 Oncology Nursing Society Distinguished Researcher Award, and the Helen Nahm Distinguished Lectureship. She was also one of the 2019 NINR Director's lecturers.

## Research Training in Women's Health and Intersectionality Using Data Science and Health Information Technology (WISDOM)

We are pleased to announce Nell Hodgson Woodruff School of Nursing has been awarded a prestigious National Institute of Nursing Research (NINR) of the National Institutes of Health (NIH) T32 Award, to train pre-doctoral and post-doctoral students in Women's Health and Intersectionality Using Data Science and Health Information Technology (WISDOM).

Intersecting forms of social disadvantage and marginalization are frequently associated with adverse health outcomes of women. The use of data science and health information technology can improve research effectiveness in reducing health disparities among disadvantaged groups of women by providing alternative strategies to access, assess, and address these populations (e.g., increasing access to hidden populations, improving the precision of measurements).

**Do you think this T32 might be a good match for  
your pre-doctoral or post-doctoral research area?  
Visit [www.emory.edu](http://www.emory.edu) for additional information.**

# WPAPP-K Study

## Looking for participants

To help improve depressive symptom experiences among midlife Korean American women in the USA!

We are looking for Korean American women living in the USA who answer 'yes' to ALL items below:

- ☐ I am between 40 and 65 years old
- ☐ I am of Korean descent through my parents or grandparents
- ☐ I can read and write English or Korean
- ☐ I am sedentary, but not because of a physical disability
- ☐ I have access to and use e-mail and the internet
- ☐ I have had depressive symptoms in the past two weeks

Dr. Eun-Ok Im and her team at Emory University want to learn how effective the newly developed program is to support Midlife Korean American women experiencing depressive symptoms in the USA.

**WPAPP-K study is a Web-App based study and does not involve medication and travel.**

Up to \$150 compensation will be provided during the 12-month study duration.

For details, please refer to "Consent to Be a Research Subject."
